

How dare someone think they have the right to determine the VALUE of a Christian radio station to its listeners!!! I consider it a blessing that I can listen to the radio station of my choice in my own personal home - as this right and privilege has already been taken away from me in my job - and what a CRIME that is! I have been a teacher for 22 years and have witnessed the moral decline of our young people. Look how violence has increased in our communities. The radio stations are full of profanity, sex, and violence! K-Love is one radio station children and adults can go and be assured that they are not inundated with all the vices in this world. OR IS THIS YOUR HIDDEN AGENDA?? What have you got against Christians?
